A BIANCHI 1770 GROUP COMPANY

KEYLINE FORD REMOTE CONTROLS

The range of Keyline car remotes expands with the RFD100 and RFD80 models for Ford keys, presented to the world for the first time. Entirely on-board clonable, they guarantee perfect synchronization with the original Ford remote without altering the functionality.

Keyline remote for Ford is available in two versions:

RFD100 - With an integrated TK100 board, which is the universal electronic head for all types of fixed code transponders, Texas** Crypto transponders and second generation Philips* Crypto transponders. With this version, remote functions can be easily programmed with the 884 Decryptor Ultegra without the need of a diagnostic tool.

RFD80 - With the original Texas** 80 bit integrated transponder, to be programmed with a diagnostic tool.

Keyline RFD100 and RFD80 have a plastic head with four buttons and a replaceable battery, and are available with three different key blades - FD3, FD21 and FD40 - for the duplication of Ford models from 1998 onwards.

Keyline presenta el preestreno mundial de los modelos RFD100 y RFD80 para llaves Ford, controles remotos clonables con la 884 Decryptor Ultegra y que se pueden programar totalmente adentro del vehículo y garantizan la perfecta sincronización con el control remoto Ford original, sin alterar la funcionalidad.

El control remoto Ford de Keyline es disponible en dos versiones:

RFD100 - Con tarjeta integrada del TK100, la cabeza electrónica universal Keyline, que permite clonar todos los tipos de transponder de código fijo, todos los Texas** Crypto y Philips* Crypto de segunda generación. Con esta versión también el control remoto a distancia se puede programar fácilmente en 884 Decryptor Ultegra sin la necesidad de herramienta de diagnóstico.

RFD80 - Con transponder original Texas** 80 bit integrado para efectuar la programación mediante diagnóstico.

Los Keyline RFD100 y RFD80 llevan cabezal plástico con cuatro interruptores y pilas reemplazables, y son disponibles con 3 diferentes espadines - FD3, FD21 y FD40 – para la funciones de duplicacion en remoto de los modelos Ford desde 1998 en adelante.

** Texas is a broad meaning of the Company Texas Instruments Incorporated registered as a Trade Mark. * Philips is a broad meaning of the Company Philips registered as a Trade Mark. All brands and trademarks published here are exclusive property of the relevant car makers or groups. For instance, brands such as Abarth, Alfa Romeo, Fiat, Lancia are owned by the Fiat Group and are published herein only and exclusively as a reference for the final customer, in order to identify the spare part to be used.

** Texas es una clara referencia a la marca registrada Texas Instruments Incorporated. * Philips se refiere a la marca registrada Philips Industries. Todas las marcas y las marcas de fábrica aquí publicadas son de propiedad exclusiva de las respectivas casas o grupos automovilísticos. Por ejemplo, marcas como Abarth, Alfa Romeo, Fiat, Lancia son propiedad del Grupo Fiat y se han publicado con el único objetivo de guiar al cliente final en la identificación del repuesto que tiene que utilizar.
