ELECTRONIC KEY MACHINE SOFTWARE SUBSCRIPTION

Quick-Start Guide

KEYLINE CLONING TOOL ACCOUNT OPENING

- 1. Starting in October 2019, all Keyline electronic key machines need to be registered in order to do any software updates (free or paid), for that, you must have an account.
- To open the account, please download Keyline Cloning Tool app: <u>https://keyline-</u> <u>usa.com/uploads/file_uploads/upload_en_20200205140234.exe</u> (not available for Apple iOS operating systems)
- 3. If you have an account already, enter your username and password at the Login screen. If not, select Register and complete all the registration fields. Once complete, you will receive a confirmation e-mail to finalize the registration and have your account ready for Software updates.

Please note, if you have registered an account through the Keyline website, you will use the same username and password and do not need to create a separate account in the Keyline Cloning Tool app as they are synced.

CHECKING SOFTWARE SUBSCRIPTION STATUS

- 1. Your Keyline electronic key machine includes free Software Updates if it is under warranty. Go to the following link and discover if your susbcription is active and follow the steps indicated <u>https://keyline-usa.com/en_US/liger-software-subscription/software-subscriptions</u>.
- 2. After 2 years, you must purchase a software subscription for access to future updates.

PURCHASING SOFTWARE SUBSCRIPTION

 If your machine is past the 2 year warranty period, you will need to purchase a software update subscription. Contact your distributor to purchase your preferred software subscription package. If your machine is still under warranty, please go to 2.60 and 3.00 SW Installation guide.

2. Once complete, you will receive a unique activation code e-mailed to you from Keyline USA. This code will be entered in the Keyline Market section to purchase Keyline KeyCoins. This is a virtual currency used to select the software subscription package you purchased. See page 4-5 for step by step instructions.

Note: around 7 Liger Software updates are realeased a year. These updates allow it to be more powerful and complete with many new features and functions. Your machine will continue to work without updating it, but we truly recommend to do it for better performance.

KEYLINE KEYCOINS

- 1. Keyline KeyCoins are a virtual currency used to purchase Keyline features, software subscriptions and more. To add the software subscription, select Keyline Market from the drop down menu.
- 2. Select the 'K' icon next to 'Ran out of KeyCoin? Recharge now!'

3. Enter the unique activation code you received and select OK. Your KeyCoin balance will now update and you can proceed to selecting the software subscription package.

SOFTWARE INSTALLATION USING USB FLASH DRIVE

Quick-Start Guide

Installing SW 2.60.0, DB 2.37

Connecting the machine to the internet through and Ethernet cable, allows this process to be faster and hassle-free. We recommend to do this installation through internet.

1. Login, then select Setup from the Main Menu

2. Follow the prompts on the screen as noted below

3. Insert USB stick into USB port on PC

Insert USB stick into USB port on PC then go to http://keyonline.keyline.it

On site, click CHOOSE FILE

Go to File Explorer, locate the drive where the USB stick is assigned and click the drive

Highlight the '.cks' file listed and click **OPEN**

The '.cks' file now appears in the box on the Keyonline site, then click **REQUEST UPDATE**

A pop-up box will appear that says "This action may take some time"

Click **OK** when this message appears

Software package creation will begin. This take up to a few minutes depending on your Internet speed.

4. Install update file on USB from PC
